No expenditure was incurred by the Government of India. The visits were funded by WHO, UNICEF and UNFPA.

It has been observed, inter-alia, that strong political commitment, close intersectoral coordination, active involvement of non-Governmental organisations, community participation, providing a wide choice of contraceptives, innovative strategies for information, education and communication with emphasis on inter-personal communication and provision of good quality of services are necessary for achieving better results.

The successful results achieved by states like Kerala and Tamil Nadu in implementing the family planning programme are discussed in various national/regional meetings. Field visits to these states are also organised.

(c) and (d) : A decision to invite bids for development of discovered fields was taken in puly, 1992. The bids were invited in August, 1992. The last date originally fixed for submission of bids was 31st December, 1992, but on requests made by a number of companies for allowing more time for examining the voluminous technical data on the fields, the last date for submission of bids was extended to 31st March, 1993. All the 117 bids were received in the last week of March, 1993.

(e) Evaluation of the offers is currently in progress. Contracts would be finalised only after negotiations have been held with companies and it is expected that this process would take in least 4-5 months.

(f) The development programmes for the various oilfields will be known only after award of the contracts.
